

Fast, secure Wi-Fi for every store, *set up and watched for you.*

One standard network for every location. Your POS, kitchen screens, phones and the AI receptionist run on it, and our team monitors it so problems get fixed before a rush.

ROUTER

UniFi Express 7

Wi-Fi 7 router and gateway. The brain of the network, with a separate, secure lane for POS and phones.

WI-FI

2 Wi-Fi 7 access points

Strong coverage across the counter, dining room and kitchen. Guest Wi-Fi kept apart from the store network.

SWITCH

8-port PoE switch

Powers the access points and phones over one cable each. Room for POS, printers and screens.

What's included

- All three devices, configured for your store before they arrive
- Call quality settings so phones and the AI receptionist sound clear
- Monitoring and support from our phone and network partner
- Works with your POS, kitchen screens, card readers and printers

Pricing per store
